England.

To whom it may concern during the course of 2009/10 I engaged Donal Brosnan of Architectural Design and Development Limited to carry out some work for me on my house in Glenquin. During the course of this project I have found Donal to be highly professional, helpful, honest and very competitive in his pricing. When I started on this project I had only a very vague idea of what I wanted. Donal was very patient with me and offered me an excellent selection of ideas. He guided me through the whole planning application and when I did encounter a problem with my septic tank he put me in contact with colleagues of his that carried out the correct procedures -again at very realistic prices. Donal takes great pride in his work and always comes up with solutions to any difficulties encountered. He is a really nice person to be around and I highly recommend him to anybody carrying out any development work. I would be delighted to answer any questions with regard to this reference.
